

# We don't just sell bags. We build programs.

*Introducing our freshest feature...*

With Microban anti-microbial protection your customers' bags will last longer and stay cleaner.

Microban inhibits the growth of bacteria that can cause odours, stains and product deterioration. Microban infused bags are brought to you by InStore Products, creators of the original Bring Your Own Bag. The BYOB program will:

- 1) reduce your supply costs
- 2) grow the reusable bag category at your stores
- 3) keep you ahead of the curve!
